

**Vision** Australians see water and catchment policy and management as fairer and more legitimate

**Mission** To improve water and catchment policy decision-making in Australia

*We are a trusted, independent and impartial broker of better water and catchment policy decision-making processes*

## Our goals

**Governments** develop water and catchment policy through inclusive, legitimate and fair processes

**Stakeholders** meaningfully participate in water and catchment policy processes

**Engagement with evidence** drives productive dialogue and debate

## Our work

### Engage

1. We **build trust and mutual understanding** with governments and stakeholders
2. We **gather, analyse and share** evidence to advance productive dialogue and debate

### Innovate

1. We **create, test and demonstrate** better policy decision-making processes
2. We create new ways to **foster** deliberation, **broker** knowledge and **navigate** policy deadlocks

### Empower

1. We **promote** the value of better processes for policy decision-making
2. We **demonstrate and build capacity** for better policy decision-making processes

## Our values

Independence and authenticity

Agility and tenacity

Collaboration and inclusivity

Humility and learning

Honesty and integrity

Transparency and accountability
